

Interdisciplinary and international Design Build Summer School Renewable Materials

DESIGN BUILD PROJECT

‘HSRM Competence Centre for Renewable Building Materials’ is inviting national and International students to the 3rd edition of its Summer School “Building with renewable materials”.

The international and interdisciplinary Summer School will feature various techniques of earthen and bamboo construction as well as experimenting with a wider range of renewable building materials. It should serve as a catalyst to all participants to gain practical experience in the field of sustainable building materials.

HOW TO REGISTER

For registration, please send an e-mail with a CV by 16th of June, 2024 to christoph.diekhans@hs-rm.de. Confirmation to the participants will be sent out by 23rd of June, 2024.

TEAM

The team of the ‘Competence Centre’ is looking forward to the design build week: Prof. Sascha Luippold, Dr.-Ing. Oliver Bletz-Mühdorfer, Dipl.-Ing. Andrés Böppler, Dipl.-Ing. Jan Glasmeier, M.Sc. Pascal Franck, M.Sc. Paulino Botao, M.Sc. Nikolai Ochs and M.Sc. Christoph Diekhans.

GENERAL FACTS

ORGANISER

HSRM Competence Centre for Renewable Building Materials
(In the process of establishing)

TIME

26.08.2024 - 31.08.2024

LOCATION

Campus HSRM Wiesbaden
Kurt-Schumacher-Ring 18

COSTS

No participation fees. Costs for travel and food have to be covered by the participant

ACCOMMODATION

Available on campus after consultation

ACCREDITATION

4 ECTS
(for external possible)
