

Public Symposium
**BIKE SHARING & CO –
HOW TO DO IT WELL?**

Wiesbaden, 18.-19. September 2024

Program

Call a Bike

OUR SPONSORS

The conference is hosted and organized by the Mobility Management Group of the Rhein-Main University of Applied Sciences and the German Platform for Mobility Management (DEPOMM).

We would like to thank our generous sponsors, whose support made this conference possible in the first place. Without their contributions and commitment, this event would not have been possible. Thanks to their support, we are able to offer a high-quality program and create a platform for exchange and networking. We greatly appreciate their partnership and commitment to the common cause. Thank you very much for your valuable support!

fifteen

With the kind support of the
Network for Intelligent Mobility (NiMo e.V.).

BIKE SHARING & CO - HOW TO DO IT WELL?

Bicycle sharing systems are now well established, particularly in large cities, and new micromobile vehicle types have been added in the form of e-scooters, pedelecs and cargo bikes. However, the question of the „ideal“ sharing concept still remains unanswered, both from the perspective of viable operator and business models, as well as in terms of their impact and effectiveness. These and other topics will be examined and discussed at the symposium. Various practical examples from local authorities, the bicycle industry, mobility providers and representatives from planning, consultancy and science will highlight problems, knowledge gaps and solutions. In addition to interesting keynotes, presentations, an exhibition and a panel discussion, the event offers plenty of space for informal dialogue and discussion.

The conference is aimed at interested parties from local authorities, transport associations and companies, politics, experts/consultants, providers, students and the interested public.

PROGRAM

WEDNESDAY, 18.09.2024

12:30

Registration

13:00 - 13:30
